

## QUICK START FOR SEELVA1.0

### Step0: Access to Seelva

To enter the Seelva application, click on the following fast link:

<https://www.arlenda.be/seelva>

Enter the *user ID* and *password* into the adequate fields you have received and press on “**Submit**” button.

If the *User ID* and *password* are correct and accepted, the homepage is displayed, which constitute the starting point.

### Step1: Introducing data from the example file.

Click on “**Validation**” on the left menu to start to enter data. The screen indicated should be displayed. On this screen you have 2 options:

- Validation with responses
- Validation with results

Click on “**Responses**” for using the example set of data.

You can upload data from the file you have received. But you need first to save the file on your disk.

If you have not received the example data, you can have them on:

<http://www.arlenda.com/images/download/seelvaAUTO.xls>

Then by clicking on “**Browse...**” you can point on the excel file (the path is indicated in the window).

Click on “**Click Here**” to upload the data.

All the data have been uploaded and the fields are now filled.

Click on “**Submit**” on the bottom of the page. The “Step 2 of 4” page is displayed.

### Step2: Model Selection and Accuracy Limit

Select “**Set all models**”.

Keep the initial values as they are, and choose Logarithmic for Chart scale.

Fix the Acceptance Limit to 30% and Risk at 20%, and then click on “**Submit**”.

### **Step3: Model selection for reporting.**

Click on the model in blue to visualize the Accuracy Profile of the method using this Calibration function. A new window will be opened.

When you have decided which Response Function you will use for the validation, click on “*See Report*”.

### **Step4: Get your report.**

Select the classical report.

Click on “*Click here*” in section 3 to build your pdf report and to get the report of the validation.

Remark: it can take up to 2 minutes to generate the report.

The first step is to visualize the report in html format where text areas are present to introduce comments.

After adding your comments, click on the top or bottom of the page on “*Get Report*”.

Finally, click “*here*” to get back your PDF file you can save on your computer.

Remark: it can again take up to 2 minutes.
