

**Transval Version 1.0**
**SECURITY & CONFIDENTIALITY FORM**

**Transval** is a software dedicated to the confirmation that an analytical method could be transferred based on Total Error concept.

This is a product of:

**ARLEND A**

*Rue de l'Hôpital 1, CHU Bat B36 - 4000 LIEGE 1 (Belgium)*

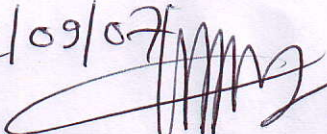

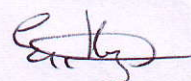

Quality Product was managed by Qualilab and Arlenda (creation of a Validation Committee):

**QUALILAB**

*1121, Rue de la Bergeresse - 45160 OLIVET (France)*

As a supplement to the RELEASE FORM TRANSVAL 1.0 (TRANSV-48), ARLEND A guarantees the security and the confidentiality of the data submitted to Transval thanks to:

- Each user, to be able to connect to Transval, needs a personal login and a password which has to be changed each 60 days.
- After the log-off of the user, all the data submitted are deleted from the server. Moreover, the generated reports done by the user are not saved nor stored on the server. In case of non activity during 30 minutes, an automatic log-off is done.
- The transfer of the data is protected and encrypted by a SSL Certificate 256bits (AES-256).
- The production Server is hosted at CEGEKA N.V. (Universiteitslaan 9, B-3500 Hasselt, Belgium), a specialized company providing all the requested guaranties for such an application, contracted on June 13<sup>th</sup> 2003.
